LOCATION

The hotel is located within a large mixed-use complex, including shopping, residential and office units, and flanked by historical blocks, and museums as well as the landmark Gongchen Bridge. Featuring 344 rooms and suites across nine room categories, including 132 with Grand Canal views, Kempinski Hotel Hangzhou has 83 suites, which is the largest number in the city.

— Modern Luxury —

Designed by ACID Singapore, the five-star, 14-storey hotel incorporates the property’s natural surroundings into the luxurious design. The gentle curves of the open-plan guestrooms, cool timber flooring and elegant finishing reflect the bends of the Grand Canal as well as the tranquility and fluidity of water. Each guest is greeted by a larger-than-life chandelier in the lobby, inspired by the snow-tipped branches of willow trees that dot the banks of the West Lake. Sheer, hand-painted fabrics, each embroidered with images of Tang Dynasty court ladies weaving Hangzhou silk, adorn the sliding panels on the wall, a subtle nod to the area’s history.

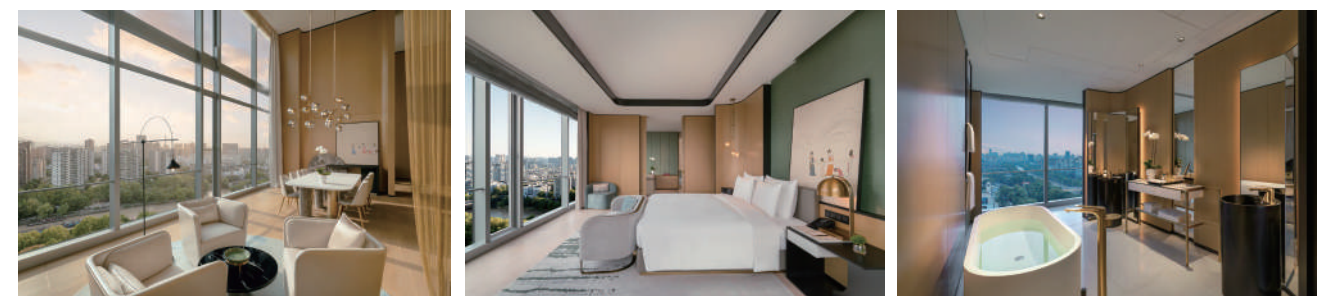

— European Luxury and Chinese Aesthetics —

Kempinski Hotel Hangzhou, as the first Kempinski brand hotel in Zhejiang Province, has been open since 2019.
